

GroundHunter AWD

Advanced Wire Detector

Chemring

Technology Solutions

GroundHunter Advanced Wire Detector (AWD) provides unrivalled performance in the detection of wires associated with IEDs including command wires. Easy to use, it provides pinpoint accuracy and a high degree of assurance.

OPERATIONAL VERSATILITY

GroundHunter AWD provides operational versatility for today's threat environment:

- **Lightweight**
It is both lightweight (2.3kg with batteries) and compact
- **Easily Stowed**
The universal stock allows the AWD head to be detached and the handle folded for easy stowage
- **User Feedback**
It delivers feedback to the user by vibration, sound and LEDs which can be disabled subject to the tactical environment
- **Sensor Options**
The universal stock can incorporate other Chemring detector heads e.g. metal detector

ADVANCED SENSING

GroundHunter AWD has excellent detection performance. It uses unique sensing technology which enables accurate and reliable diagnostic performance. It is interoperable with the in-service equipment of numerous nations and has a high level of electro-magnetic compatibility.

INTUITIVE FOR USERS

Designed to be used in the upright position, GroundHunter AWD enables the generalist and specialist user alike to find the wires associated with IEDs. Users are quick to develop a high level of assurance as it has an easy to use interface, calibrates in less than 5 seconds and is easy to operate. GroundHunter AWD requires minimal training to deliver high calibre results.

PROVEN AND TRUSTED

GroundHunter AWD has been developed in conjunction with UK MOD specialists. It has been extensively tested around the world and will perform in exacting wet or dry conditions and a wide variety of soil types.
